Continuing Education
Digital Design and Visualization

Explore all Continuing Education Courses:

- **Graphic Information Technology for Architects & Engineers** using Photoshop & Illustrator (17/08/16 & 18/08/16)

- **Advanced Graphic Information Technology for Architects & Engineers** using Photoshop (3D + Animation) (19/08/16 & 20/08/2016)

- **Vector Design** using Illustrator (22/08/16 & 23/08/2016)

- **Digital Imaging** using Photoshop (24/08/16 & 25/08/2016)

- **Digital publishing & Interactive portfolio** using Indesign (26/08/16 & 27/08/2016)

Course Offering Schedule - August 2016:

Code	Course	Description	Course outcomes	Date	Price
GIT01	**Grpahic Information Technology for Architects & Engineers**	**Day 1:** • Enhancing CAD Drawing with Vector Image using Illustrator **Day 2:** • Enhancing CAD Drawing with Digital Imaging using Photoshop	This course allows participants to build expertise in computer-based design technologies and learn skills relevant to enhancing CAD drawings with Illustrator and Photoshop	• Wednesday, August 17, 2016 • Thursday August 18, 2016	250 $
GIT02	**Advanced Graphic Information Technology for Architects & Engineers**	**Day 1:** • Enhancing Drawings Advanced techniques • Crafting Interactive Panorama • Compositing Imagery from 3D Applications • Working with imported 3D Models **Day 2:** • Integrating 3D models with Photos • 3D modeling in Photoshop, Shooting and Perceiving Stereographic Images • Working with Animation and Video"	This course allows architects and Engineers to see what is now possible to do with 3D models in addition to 2D drawings in Photoshop!	• Friday, August 19, 2016 • Saturday, August 20, 2016	300 $
GIT03	**Vector Design using Illustrator**	**Day 1:** • Drawing with Illustrator • Typography • Working with objects, with symbols & masks **Day 2:** • Advanced techniques: gradient, mesh, 3D • Choosing Illustrator for Web and Interactive Design	This course allows participants to become fluent in the premier program for line art, logos, vector graphics and quick page layout as well as tricks and time efficient techniques to keep work clean and professional.	• Monday, August 22, 2016 • Tuesday, August 23, 2016	250 $

Course Offering Schedule - August 2016:

GIT04	**Digital Imaging Using Photoshop**	**Day 1:** • Mastering the effects of the clone and healing brush tools • Understanding and working with Layers, the Adjustments Panel and the basics of Masking • Color correction and interesting effects **Day 2:** • Color Correction and adjustment layers • Working with text and vector shapes in PSD • File formats, resizing, and saving	This course allows participants to learn practices and principles of digital imaging, illustration, and photographic manipulation using Adobe Photoshop	• Wednesday, August 24, 2016 • Thursday, August 25, 2016	250 $
GIT05	**Digital publishing & Interactive Portfolio using Indesign**	**Day 1**: • Manipulating text & paragraph • Layout, style sheets, master page, grid, and paragraph styles **Day 2:** • Brochure project • Turn in Brochure Project and introduce Rich Interactive Documents • Advanced Animation and Interactivity. Studio Time to work on photo albums"	This course will demonstrate the various tools that assist in formatting text importing images and creating page layouts. Participants will be familiarized with InDesign from the beginning stages of laying out print documents to learning how to create interactive projects all within one program.	• Friday, August 26, 2016 • Saturday, August 27, 2016	250 $
